FIRE ESCAPES. The awful loss of human life at the late fire to Detroit gives added emphasis to the growing demand for more adequate provision for escape from whose faith in the party is co-ordinate burning buildings. Many large factories, hotels and public buildings the country over are grossly deficient in the number of exits provided. It is only publicans of the Fifth district are strong when a holacaust occurs at home, like the one at Detroit last week, that the people and their servants, the officials, come aroused to the importance of the matter. In Detroit the papers have the mistake of the recent past may not undertaken to arouse a sentiment that be committed a second time. An oppowill compel the enactment of more efficient laws to protect life in such cases. The discussion and consequent investigation of the question is demonstrating that it is not the lack of proper laws, requiring official inspection and approval of buildings and building operatives, but a very lax enforcement of existing statutes that is responsible. The state has a law requiring the erection | tion. The party cannot hazard its suc and maintenance of fire escapes upon buildings, which are the habitation or workshop of people, and which are so high as to need such protection. The law has never been declared invalid, and at various times in our own city spasmodic efforts have been made to enforce it. In many cases such efforts have been successful, and the escapes provided would be invaluable should a serjour fire occur where they have been for the office of congressman. pinced. There are other cases in town, however, where the owners of buildings have refused, by their neglect at least, to comply with the requests and recommendations of our fire marshal.

Should a fire occur involving loss of

human life in a building owned by such

an individual, he would be as morally

guilty as a murderer. Let us hope none

of Grand Rapida' citizens will be called

Tonight, according to the official announcement, the revival meetings at Lockerby hall will close, Hundreds of our citizens will be very loath to have them cease, but for sanitary reasons alone it is not well to continue such efforts too long. The tension of mind and body is so severe that great exhaustion follows a long continued and earnest devotion to such work. It is well to stop before the utmost limit is reached.

THE HERALD has gladly given a large space to these meetings because it claims to be a newspaper and to give its readers an adequate report of events which are of public interest and importance. The vast audiences which have greeted Mr. Mills at every meeting proves conclusively that the people of our city are quick in response to the great moral and spiritual truths of religion, and are in hearty sympathy with all well directed efforts to improve their minds and morals. The spirit and methods of Mr. Mills have in the main hears such as to avoid just criticism from any quarter. Of course, no man can please everybody, but Mr. Mille' most evident sincerity, frankness, and utter fack of sectarian cant won for him the hearty respect of all who heard him the meeting of the Home Market club even if they did not manifest their feel of Massachusetts. The enthusiasm ings by rising or signing the cards.

It is altogether too common to mention the results of such meetings by the shows that the political principles which number of alloged conversions when, in | they represent are jetill dear to the fact, the most valuable results are unseen and unknown except to the ones that reserved the most real benefit. The influence of such an effort is felt in so many directions that it cannot be measural It gives Tim Hanalo pleasure to be able to heartily commend Mr. Mills and his work, and if he shall continue his efforts in other cities it is to be hoped the same success will aftend him

## ADJOURNMENTS.

When the examination of Dr. Barth was called in pollos court Saturday, the prossenting afterney requested an adjournment and stated that the complaining witness. Amanda Swanson, was too ill to appear. Judge Reuben Hatch stated that his time was pre-engaged for the first three days of next week and requested that the examination be not set for one of those days. Thursday of next week being Thanksgiving day, the examination was adjourned until Friday at 9 o'clock. In the trial of any cause there are usually anavoidable delays. Adjournments are often comprised he by either side to gain some funcied or real anyantage. In case of guilt the defense is prone to court adimproments and delay. It is to he hoped that the present case will he brought to an issue as specify as possible. The crime and repecially the circumstances surmuniling it are such that the community may well be absolved. For the sake of the

edical profession, as well as for the safety of the many westen who are com-pelled to seek the advice of physicians, the public is slow to have its faith to the honor of the individual physician thus rudely shaken. The fact that it is so rare that a medical man is charged with improper conduct ought to be good evidence that the great majority of them are men of honor and worthy of trust. When such a charge is preferred it should be rigidly and thoroughly looked into. No half way measures or avoiding the issue will be tolerated by the public mind. If the doctor is guilty he should be punished to the fullest extent of the law. If innocent, his reputation and the reputation of the honorable profession of which he is a conspicuous factor in this community demand a complete and unqualified vindication, and that at the earliest possible moment. Let there be no unnec-

### FOR CONGRESSMAN.

Present indications point to the election of a republican congressman from this district next year. The candidate, however, must be a man of force and intelligence. He must be disentangled from factional feeds, and stand as the acknowledged leader of the whole party. He must have no friends to reward, no enemies to punish. He must be a plain, stalwart, uncompromising republican, and co-equal with his faith in himself. He must be truthful, circumspect, honorable and bonest. Such a man the reenough to elect. Any man falling to meet those requirements will be exposed to almost certain defeat. It is well to canvass the matter early to the end that sition strong enough to defeat at one time may be relied on to redouble its efforts to defeat a second time. This district contains a large number of earnest and loyal republicans upon any one of whom the party would advance a solid line of enthusiastic support. There can be no tenable reason assigned for ignoring the claims of these men to recegnicess by experimenting with a dubious effort to rehabilitate the political prestige of a repudiated self-seeker. New men must be brought to the front. Personalities must be banished. A clean republican will unify the party and win success. The party has nothing to vindicate except its inherent Americanism. The duty it owes the people is to nominate a representative member

THE democrat papers of Chicago anticipate the nomination of acting-Mayor Swift by the republicans as their candidate for chief executive of that city One of them says no man who understands the local situation believes that it will be an easy matter to defeat Mayor Swift and advises the democracy that it might as well take Mr. Swift's measure now if Chicago is to be kept in the avail little whether the "measure" mentioned is taken now or later. Mayor Swift will undoubtedly be the choice of a majority of the electors of Chicago to the vacancy caused by the death of the late Carter Harrison.

In the matter of sending aid to the Upper Peninsula mine sufferers, in response to the call of Governor Rich, the citizens of Detroit and Grand Rapids have acted with their usual characteristic promptness. Detroit's Sunday papers noticed a call for citizens of that town to meet Monday at the Hotel Cadillac to consider the matter. When that Detroit meeting is called to order Grand Rapids' car load of flour will be at the straits of Mackingc.

THE Democrat remarks that the evidence produced by Ex-minister Blount, and upon which he based his report, is most convincing. Doubtless the average democrat is easily convinced by any thing coming from democratic sources, but it may not be so easy to convince discerning minds. Most people seem to be convinced that he made a bad matter much worse.

"CEAR" KEED and Governor McKinley lately addressed a great gathering at which these two republican leaders arouse whenever they speak, clearly hearts of many.

Cantaga officers just now seem to be having a host of trouble. The French cubinet has resigned, as has also the Servian cabinet. There are rumors that Secretary Greenam will soon resign also. The path of political glory seems but to lead to political death.

Tun calls upon the benevolent are now so many and so urgent that they may surely be excused if their gifts in aid of any particular cause or person are not large. Few of our citizens are consumed of any unlimited means.

The Waifs of New York" with a real fire scene and a real engine opened in The Grand to a crowded house last night. The play has many sensational elements and strongly appealed to the audience. The sork of the caste is uniformly good and the play should draw good houses during the week.

One of the best performances of the season opened to a good house in Smith's last night. The Bissa City quartet again captured the crowd. The specialty work of Murphy and Link and of the McNuity sisters is pleasing and above the average.

All Day at the Deak. Even in the strongest constitutions the woman with as much certainty as water is pumped out of a ship's hold by a donkey engine. Application to business is praise worthy, of course, but this may be over-done. Espand your lungs, stretch your limbs with vigorous exercise occasionally, and above all, if you find that overwork last and above all, if you find that overwork has made inroads upon health, try a course of flustetter's Stomach Bitters, which stimu-lates digustion and regulates the bowels, liver and system generally. It is the king of tonics, and possesses qualifies which, say physicians, commend it to the use of inva-lids in general. Beneficial in majorial, rheu-matic, kidney and nervous complaints.

Are Your Children Subject to Croup? If so you should never be without a bottle of Chamberlain's Cough Remedy. It is a certain cure for croup, and has never been known to fail. If given freely as soon as the croupy cough appears it will prevent the attack. It is the sole will prevent the attack. It is the sole reliance with thousands of mothers who have croupy children, and never disappoints them. There is no danger in giving this Remedy in large and frequent doses, as it contains nothing injurious. 50 cent, bottles for sale by F. J. ### The Best Plaster.

The Best Plaster.

Dampen a piece of flannel with Chamberlain's Pain Balm and bind it on over the seat of pain. It is better than any plaster. When the lungs are sore such an application on the chest and another on the back, between the shoulder blades, will often prevent pneumonia. There is nothing so good for a lame back or a pain in the side. A sore throat can nearly always be cured in one night by applying a flannel bandage dampened with Pain Balm. 50 cent bottles for sale by F. J. "I cannot tell in this letter all that Rood's Sarsaparilla has done for us, but can say this much: Our son Viante had a running sore on his face, beginning on one side and moving under his chin to the other side. We tried every thing to cure it, but no help came, and for four long years it continued, unsightly and very trouble some. Several persons urged us to give him Hood's Sarasparilla, and we found that he improved while taking the first bottle. We kept od
